SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

23ANDME HOLDING CO.

Date: May 23, 2024 By: /s/ Joseph Selsavage

Name: Joseph Selsavage

Chief Financial and Accounting Officer

23andMe Reports Fourth Quarter and Full Year Fiscal 2024 Financial Results

SOUTH SAN FRANCISCO, Calif., May 23, 2024 -- 23andMe Holding Co. (Nasdaq: ME), a leading human genetics and biopharmaceutical company, reported its financial results for the fourth quarter and full year of fiscal year 2024 (FY24), which ended March 31, 2024.

Key Results and Recent Developments

- On March 28, 2024 the Board of Directors of 23andMe formed a Special Committee comprised of independent directors to review strategic alternatives that may be available to 23andMe to maximize shareholder value. On April 18, 2024 the Company announced it has been made aware that Anne Wojcicki, Chief Executive Officer, Co-Founder, and Chair of the Board of Directors of 23andMe, is considering making a proposal to acquire all of the outstanding shares of 23andMe that she does not currently own.
- Reported total revenue of \$64.0 million in the fourth quarter of fiscal 2024, compared to \$92.4 million in the fourth quarter of fiscal 2023, a decrease of approximately 31% due to lower research revenue after the conclusion of the GSK collaboration exclusivity term in July 2023 and lower PGS kit volumes and telehealth orders. Full year 2024 revenues were \$219.6 million compared to \$299.5 million for full year 2023.
- Launched new 23andMe+ Premium ancestry feature called Historical Matches, connecting customers to one or more of 335 historical individuals, weaving ancestral connections into the story of human history and migration.
- Announced availability of three new genetic reports for 23andMe+ members on breast, colorectal and prostate cancer. The
 reports are based on statistical models known as polygenic risk scores (PRS), developed by 23andMe through its proprietary
 research database. These PRS reports calculate the potential likelihood of an individual developing one of these cancers, based
 on thousands of genetic variants associated with the disease.
- Announced dosing of the first patient for Phase 1 clinical trial for 23ME-01473, a dual-mechanism natural killer (NK) cell
 activator, targeting ULBP6, intended to treat cancer. The Company expects to continue to enroll patients throughout fiscal year
 2025 and announce results of the study later in calendar year 2025.
- Presented posters for 23ME-00610 and 23ME-01473 therapeutics programs at the American Association for Cancer Research (AACR) annual meeting and completed enrollment of the 23ME-00610 phase 1/2a clinical trial in April 2024.
- Will be presenting posters at ASCO on the neuroendocrine cohort (June 1) and ovarian cohort (June 3) for 23ME-00610, the first data presentations from the Phase 2a expansion cohorts.
- On May 9, 2024 the Company received a notification letter from Nasdaq notifying the Company that it had been granted an additional 180 days, or until November 4, 2024, to regain compliance with the minimum bid price requirement for continued listing on The Nasdaq Capital Market.

"The Company had a productive fourth quarter and solid end to the year, continuing to add value for members of 23andMe+ and advancing our clinical stage assets," said Anne Wojcicki, Co-Founder & CEO of 23andMe. "We continue to work to build value for customers and shareholders and are looking forward to a transformative FY2025."

O4 Fiscal 2024 Financial Results

Total revenue for FY24 Q4 was \$64 million, compared to \$92 million for the same period in the prior year, representing a decrease of 31%. The decrease was primarily driven by lower research services revenue as the GSK collaboration exclusive discovery term concluded in July 2023, as well as lower consumer services revenue driven mainly by lower PGS kit sales volume and telehealth orders. These decreases were partially offset by higher revenue from growth in our membership services.

Revenue from consumer services, which includes PGS, telehealth and membership services, represented approximately 99% of total revenue for FY24 Q4. Research services revenue accounted for approximately 1% of total revenue for FY24 Q4.

Operating expenses for FY24 Q4 were \$239 million, compared to \$109 million for the same period in the prior year. The increase in operating expenses was primarily due to a \$153 million non-cash goodwill impairment charge taken in the quarter, reflecting the remaining balance of the consumer and research services segment's goodwill acquired as part of the acquisition of Lemonaid Health Limited. The increase was partially offset by lower personnel-related expenses following workforce reductions in prior quarters along with the disposition of Lemonaid Health Limited in the UK in August 2023 and lower R&D spend due to a significant reduction in GSK collaboration programs.

Net loss for FY24 Q4 was \$209 million, compared to a net loss of \$64 million for the same period in the prior year.

Adjusted EBITDA (as defined below) for FY24 Q4 was a loss of \$33 million, compared to a loss of \$39 million for the same period in the prior year. The decrease in adjusted EBITDA loss was primarily due to lower personnel-related and R&D expenses, partially offset by lower research services gross profit as the GSK collaboration exclusive discovery term concluded in July 2023, as noted above. Please refer to the tables below for a reconciliation of U.S. GAAP to Non-U.S. GAAP financial measures.

Full Year Fiscal 2024 Financial Results

Total revenue for FY24 was \$220 million, compared to \$299 million for the prior year, representing a decrease of 27%. The decrease was primarily driven by lower consumer services revenue resulting mainly from lower PGS kit sales volume and telehealth orders, as well as lower research services revenue as a result of the conclusion of the GSK collaboration exclusive discovery term concluded in July 2023. These decreases were partially offset by higher revenue from growth in our membership services revenue.

Revenue from consumer services, which includes PGS, telehealth and membership services, represented approximately 92% of total revenue for FY24. Research services revenue accounted for approximately 8% of total revenue for FY24.

Operating expenses for FY24 were \$781 million, compared to \$459 million for the prior year. The increase in operating expenses was primarily due to \$352 million in non-cash goodwill impairment charges taken in the last two quarters, as discussed above. The increase was partially offset by lower personnel-related expenses following workforce reductions in the year along with the disposition of Lemonaid Health Limited in the UK in August 2023 and reductions in marketing advertising spend aimed to boost margin and marketing efficiency.

Net loss for FY24 was \$667 million, compared to a net loss of \$312 million for the prior year.

Adjusted EBITDA for FY24 was a loss of \$176 million, compared to a loss of \$161 million for the prior year. The increase in Adjusted EBITDA loss was primarily due to lower Research Services gross profit as the GSK collaboration exclusive discovery term concluded in July 2023, lower consumer services revenue driven mainly by lower PGS kit sales volume and telehealth orders and increasing Therapeutics expenses, partially offset by lower personnel-related expenses and reductions in marketing advertising spend, as noted above. Please refer to the tables below for a reconciliation of U.S. GAAP to Non-U.S. GAAP financial measures.

Please note the full year fiscal 2024 results are preliminary. The Company is still completing its assessment of its impairment review of goodwill and long-lived assets, and its impairment expense is undergoing further evaluation. This could result in an adjustment to the impairment recorded in the Company's operating expenses and impact on its net loss. Please note that any adjustment would be a non-cash item and reflected in the Company's Annual Report on Form 10-K for the year ended March 31, 2024.

Balance Sheet

23andMe ended March 31, 2024 with cash and cash equivalents of \$216 million, compared to \$387 million as of March 31, 2023.

FY2025 Financial Guidance

In light of the Special Committee review of strategic alternatives, the Company is not providing guidance at this time.

Conference Call Webcast Information

23andMe will host a conference call at 4:30 p.m. Eastern Time today, May 23, 2024, to discuss the financial results for Q4 and FY2024 and report on business progress. The webcast can be accessed at https://investors.23andme.com/news-events/events-presentations. A webcast replay will be available at the same address.

About 23andMe

23andMe is a genetics-led consumer healthcare and therapeutics company empowering a healthier future. For more information, please visit investors.23andme.com.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including, without limitation, statements regarding the future performance of 23 and Me's businesses in consumer genetics and therapeutics and the growth and potential of its proprietary research platform. All statements other than statements of historical fact. included or incorporated in this press release, including statements regarding 23 and Me's strategy, review of strategic alternatives and associated proposed transactions financial position, financial projections, funding for continued operations, cash reserves, projected costs, plans, potential future collaborations, database growth and objectives of management, are forward-looking statements. The words "believes," "anticipates," "estimates," "expects," "intends," "may," "could," "should," "potential," "likely," "projects," "predicts," "continue," "will," "schedule," and "would" or, in each case, their negative or other variations or comparable terminology, are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. These forward-looking statements are predictions based on 23andMe's current expectations and projections about future events and various assumptions. 23 and Me cannot guarantee that it will actually achieve the plans, intentions, or expectations disclosed in its forwardlooking statements and you should not place undue reliance on 23 and Me's forward-looking statements. These forward-looking statements involve a number of risks, uncertainties (many of which are beyond the control of 23 and Me), or other assumptions that may cause actual results or performance to differ materially from those expressed or implied by these forward-looking statements. The forward-looking statements contained herein are also subject generally to other risks and uncertainties that are described from time to time in the Company's filings with the Securities and Exchange Commission, including under Item 1A, "Risk Factors" in the Company's most recent Annual Report on Form 10-K, as filed with the Securities and Exchange Commission, and as revised and updated by our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. The statements made herein are made as of the date of this press release and, except as may be required by law, 23 and Me undertakes no obligation to update them, whether as a result of new information, developments, or otherwise.

Use of Non-GAAP Financial Measures

To supplement the 23andMe's unaudited condensed consolidated statements of operations and unaudited condensed consolidated balance sheets, which are prepared in conformity with generally accepted accounting principles in the United States of America (GAAP), this press release also includes references to Adjusted EBITDA, a non-GAAP financial measure that is defined as net income (loss) before net interest income (expense), net other income (expense), income tax expenses (benefit), depreciation and amortization, impairment charges, stock-based compensation expense, and other items that are considered unusual or not representative of underlying trends of our business, including but not limited to: changes in fair value of warrant liabilities, litigation settlements, gains or losses on dispositions of subsidiaries, transaction-related costs, and cyber security incident expenses, net of probable insurance recoveries, if applicable for the periods presented. 23andMe has provided a reconciliation of net loss, the most directly comparable GAAP financial measure, to Adjusted EBITDA at the end of this press release.

Adjusted EBITDA is a key measure used by 23andMe's management and the board of directors to understand and evaluate operating performance and trends, to prepare and approve 23andMe's annual budget and to develop short- and long-term operating plans. 23andMe provides Adjusted EBITDA because 23andMe believes it is frequently used by analysts, investors and other interested parties to evaluate companies in its industry and it facilitates comparisons on a consistent basis across reporting periods. Further, 23andMe believes it is helpful in highlighting trends in its operating results because it excludes items that are not indicative of 23andMe's core operating performance. In particular, 23andMe believes that the exclusion of the items eliminated in calculating Adjusted EBITDA provides useful measures for period-to-period comparisons of 23andMe's business. Accordingly, 23andMe believes that Adjusted EBITDA provides useful information in understanding and evaluating operating results in the same manner as 23andMe's management and board of directors.

In evaluating Adjusted EBITDA, you should be aware that in the future 23 and Me will incur expenses similar to the adjustments in this presentation. 23 and Me's presentation of Adjusted EBITDA should not be construed as an inference that future results will be unaffected by these expenses or any unusual or non-recurring items. Adjusted EBITDA should not be considered in isolation of, or as an alternative to, measures prepared in accordance with GAAP. Other companies, including companies in the same industry, may calculate similarly-titled non-GAAP financial measures differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of Adjusted EBITDA as a tool for comparison. There are a number of limitations related to the use of these non-GAAP financial measures rather than net loss, which is the most directly comparable financial measure calculated in accordance with GAAP. Some of the

limitations of Adjusted EBITDA include (i) Adjusted EBITDA does not properly reflect capital commitments to be paid in the future, and (ii) although depreciation and amortization are non-cash charges, the underlying assets may need to be replaced and Adjusted EBITDA does not reflect these capital expenditures. When evaluating 23andMe's performance, you should consider Adjusted EBITDA alongside other financial performance measures, including net loss and other GAAP results. Adjusted EBITDA is our best proxy for cash burn.
